

LaproShear™

Reusable Laparoscopic Scissors

The reusable scissors concept provides a new, sharp, clean blade for every procedure while retaining ergonomics and quality of a reusable handle.

This system provides a more cost-effective option that guarantees the surgeon a sharp cut every time.

- On average, 70% cost savings when compared to fully disposable laparoscopic scissors.
- Consignment handle program with lifetime replacement warranty.
- Ergonomic, reusable handle for superior control and feel that provides a more responsive tactile experience than disposable plastic instruments.
- Easy to assemble ball and socket connection.
- Enhanced cutting at the distal tip maintains accurate and precise tip approximation for improved micro dissection.
- New shaft ensures new insulation for every case providing increased patient safety.
- New shaft eliminates the need for insulation testing and expensive repairs.

Reusable

Assembles in 4 easy steps

Open handle

Insert ball into socket

Close handle

Tighten nut to secure handle
