## Specimen Retrieval Bags

5mm, 120ml

5\*/8mm, 165ml

10/12mm, 700ml

12/15mm, 2,200ml

10mm, 250 ml

LaproSac bags are made with Ripstop Nylon, which resists tearing, leaking and bursting.

LaproSac Retrieval Bags offer the broadest range of sizes in the industry, providing a durable, easy-to-use solution for various surgical needs. LaproSac product line is typically **35% less expensive than other manufacturers.**

## From the Smallest to the Largest Bags in the Market

- LaproSac is re-deployable, allowing it to be reused multiple times in the same procedure
- Resistant to tearing— even if punctured with scissors or cautery
- Manufactured from unique, lightweight ripstop nylon, making it leak-resistant to biological fluids

- **True 5mm Ripstop Nylon Bag**
- **Universal 5mm\* and Robot 8mm**
- LaproSac becomes translucent when wet for greater visibility
- Minimize larger port sites, larger bags with smaller trocar sizes
